UTILITIES

CONSTRUCTION

AVALON BARRICADE

Crowd control and events barricade

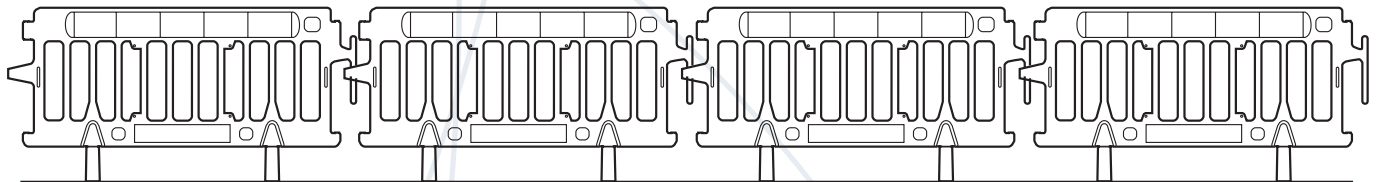

Suitable for indoor and outdoor applications including events, utilities, construction, excavation and street works.

Avalon crowd control barriers have an anti-tamper Avalon linking system which is quick and easy to deploy but cannot be interfered with.

This barricade is customizable; select a color which matches your brand to maximize your marketing, or pick a color to match the worksite. The standard feet with Avalon are ClearPath Extra feet: hi-vis and anti-trip.

Features

- Strong, durable & light: made of blow molded HDPE
- Anti-trip & hi-vis ClearPath Extra Feet
- Stacks neatly and securely for easy transportation & storage
- Suitable for uneven ground
- Color customization and company embossing
- Affix adverts, warning signs, contractor information and reflective strips to the front and back
- 100% recyclable
